

# Aviation Insurance

We are the leading aviation insurance company  
in South Africa.

# We've logged more than 350 400 flight hours.

With more than four decades of experience, Santam has established itself as South Africa's leading aviation insurer. Our expertise and commitment ensure that you can always count on us when you need us most, because much like South Africa's best pilots, we have earned our stripes through years of experience. We make sure that every aspect of your risk is adequately covered. This means you get peace of mind knowing your aircraft is financially covered should something go wrong.

## **Why insure with Santam Aviation?**

- We are the market leader. Our extensive knowledge in aviation insurance means you get high-quality, comprehensive cover for almost any type of aircraft. Our commitment to exceptional service gives you value-added customer support when you need it most.
- We are knowledgeable, and with over four decades in the industry, we fully understand your risk profile and insurance needs.
- We have streamlined our administrative and claims processes so you get paid out as quickly as possible.
- We are financially stable. We are backed by Santam's reputation and solvency.

## **We insure a wide range of private and commercial Aircraft, including:**

- Corporate aircraft
- Experimental aircraft
- Agricultural aircraft
- Gliders
- Rotorwing aircraft
- Microlights
- Non-type certified aircraft
- Drones (private and commercial)
- Charter operators, private owners and recreational flying

## **Our range of insurance solutions include:**

- Aircraft hull all risks (comprehensive or ground risk only cover) limit of indemnity US\$2 000 000
- Aircraft hull war risk limit of indemnity US\$2 000 000
- Third-party legal liability cover and/or third-party, and passenger legal liability (combined single limit) up to US\$10 000 000

# We've logged more than 350 400 flight hours.

## Optional cover:

- Excess insurance (pilots, students/private/professional pilots and owners)
- Aircraft owners and operators liability

## Insurance for commercial and private drones:

Remotely piloted aircraft systems (RPAs) or drones are finding increasing applications across all sectors of the global economy, and the development of drone technology has resulted in a multi-billion dollar global industry. Drones are used extensively in farming, in wildlife management to save dwindling animal populations, to maintain power lines, to monitor traffic flows and to provide security surveillance of assets in remote parts of the country.

In response to this growing popularity, Santam Aviation has developed an insurance product that provides the full spectrum of cover for drone owners and operators within the private and commercial space. Santam is one of the few insurers to offer drone insurance cover.

## Contact us:

Take advantage of our depth of expertise by contacting us. See how we can take care of all your aviation needs in a fast, hassle-free manner.
